What we do

Three ways to finance a company, each with its own team.

Growth equity 01

Minority and control investments in profitable companies that mean to expand. We take a board seat, and we set no date to sell.

TYPICAL INVESTMENT $20 to 120 million

Senior credit 02

Secured loans, at a floating rate and for five to seven years, for acquisitions and refinancings. Repayment is set to the company's cash flow.

TYPICAL LOAN $15 to 80 million

Structured capital 03

Subordinated debt and preferred equity for the company that needs more than a bank will lend, and less change of ownership than equity brings.

TYPICAL INVESTMENT $10 to 60 million

How we work

1. **Listen**
   We meet the owners and read the numbers before we send terms.
2. **Structure**
   One term sheet, set to the company's cash flow and not to a template.
3. **Close**
   Usually in 45 to 60 days, with one team from first call to funding.
4. **Partner**
   Quarterly reviews, a board seat where we invest, and no surprise fees.

Talk to us.

Tell us what the company needs and when. A partner replies within two working days.
